Board Thickness Choices

- 1/32"
- 1/16"
- 3/32"
- 1/8"

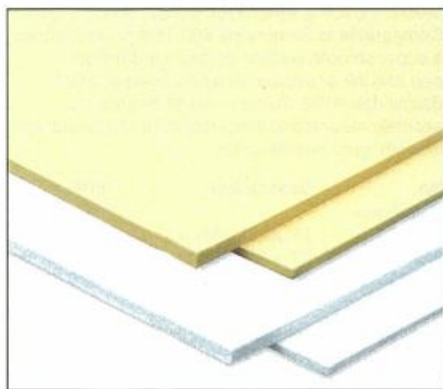

**TASKBOARD® Modeling Boards**

The ideal board for architectural, interior design, set, and topographical models. Easy-to-cut, perfect for near invisible joints. Made from sustainable forestry wood, it can be sanded easily. Rigid and non-warping, yet formable after 30 seconds when dampened on both sides with water. Taskboard will regain its rigidity after 10 minutes in front of a fan or one hour at room temperature. For instantaneous forming and drying use steam. Create strong bonds with any glue. Color with any paint, stain, or finish.

**ELMER'S® White Foam Boards**

Designed specifically for graphic arts and framing use. These foam boards feature resilient polystyrene cores that ensure a clean precise cut with a mat cutter or utility knife. Uniform edge every time. Lightweight but rigid, resists warping, denting, crushing, and won't ripple. The smooth white clay surfaces are ideal for mounting, framing, silk screening, and more. Dry-mount, vacuum-mount (recommended range: 180° to 220°F), use spray adhesives, or laminate. Bonds easily with fabrics, paper, and many other materials.
